

Company Profile 2017/2018

Our History

Vitillo company is established

We feel better under pressure

Company Profile

2017/2018

Who We Are

Simply Us

The Vitillo Group was established in 1991.

Thanks to the enterprise and passion of the Vitillo family, the Vitillo company is now a leader in the hydraulics market.

The ability to accommodate customers' unique requests enables Vitillo to offer a complete solution to every customer.

This solution includes the production and distribution of fittings, adapters, rigid tubes or flexible hoses for medium and high pressures.

Present worldwide, the Vitillo company boasts the completeness of its product range as one of its strongpoints.

Our Mission

We feel better under pressure

It's not only a
wordplay,
nor a simple
slogan.
It's our
corporate
philosophy.

It's not only a wordplay, nor a simple slogan.
It's our corporate philosophy.

We are experienced and skilled enough to face the globalization challenges. In addition we are deeply convinced that when in difficulty the best of us emerges.
Like our products, we feel comfortable in any condition.

Our goal is to be a reliable partner to our customers by offering continuous and constant support. Ultimately, our efforts result in our customers' success, which represents the ultimate gratification for us.

Values and Strategy

We invest in quality and technology
We look after our customers
We grow with our values

Quality and Innovation

Important investments are made in R&D and to insure optimization of the production process. This is made with the aim of anticipating and satisfying market demands and in order to guarantee high quality products.

Human Resources

Vitillo's success can be attributed to its loyal and skilled team that contributes to the creation of the Vitillo philosophy. For this reason, Vitillo group gives all the employees learning and personal growth opportunities.

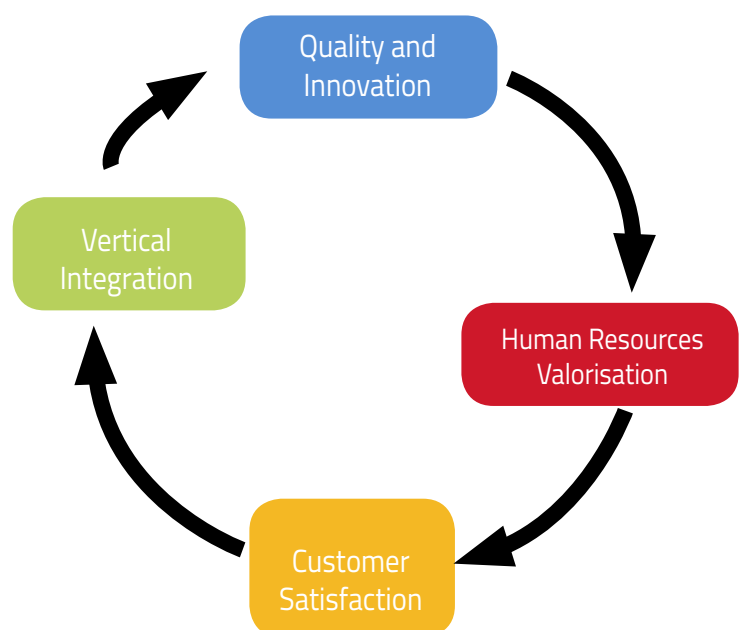

Customer Satisfaction

At the core of our philosophy are our customers. Every one of us is committed to constantly guarantee the best possible solutions to the market and to the customer.

Vertical Integration

A complete range of products and the direct control of each production phase, are two strongpoints that have led our group to become a leader in the field. This is thanks to our far-sighted strategy of vertical integration.

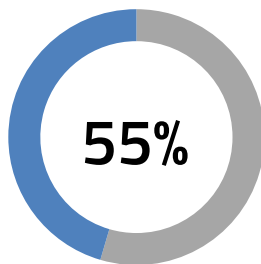

Our business model is based on four key points

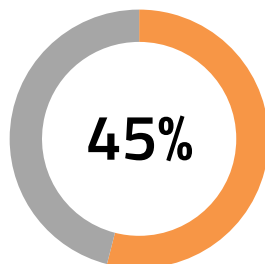

Our Figures

7 production plants
3 distribution centers
350 employees all over the world
74 million of Euro turnover

Production

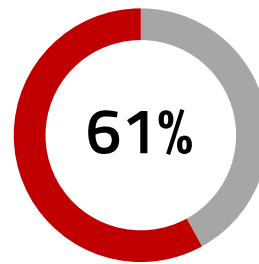

Fittings and Adapters

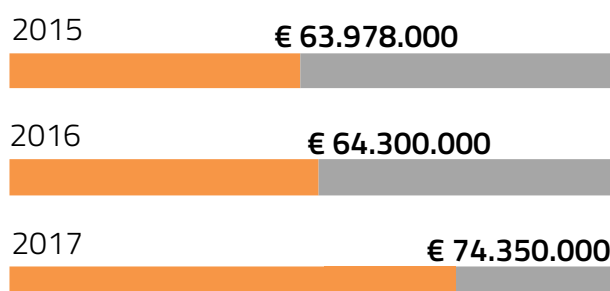

Hoses

Export

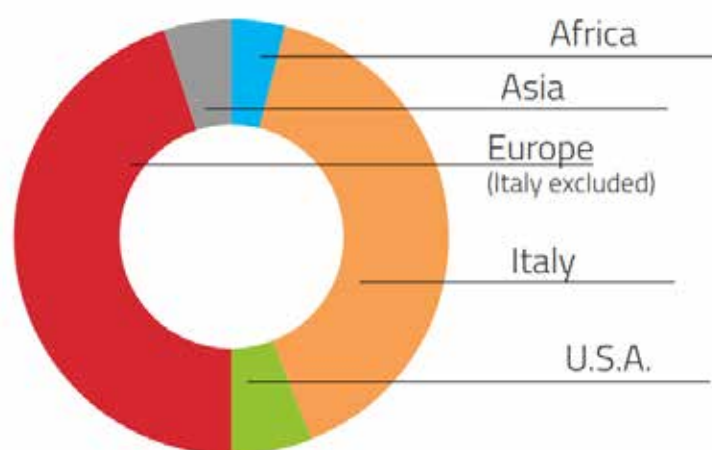

Annual Turnover

Gross sales including all Vitillo's subsidiaries.

5 divisions

Vitillo's Integrated Project

A black Vitillo hose is connected to a silver metal fitting. The hose has the Vitillo logo and name printed on it. The fitting is a complex, multi-part assembly with several hexagonal nuts and bolts. The hose is curved and loops around the fitting. The background is a light, neutral color.

Hoses, fittings and adapters are designed and tested directly by us.

This way we can guarantee the **ABSOLUTE QUALITY** of our products.
