

MINING HOSES

EVERGREEN

- EXCELLENT ABRASION RESISTANCE (20 TIMES HIGHER THAN EN ISO 6945 REQUIREMENT)
- HIGH OZONE RESISTANCE (10 TIMES MORE THAN EN ISO 7326 REQUIREMENT)
- MSHA APPROVED COVER
- ALTERNATIVE TO PROTECTIVE SLEEVE IN APPLICATIONS REQUIRING ABRASION RESISTANCE

EVERGREEN HOSE LINE

is a full line of hoses which increases resistance to extreme environmental conditions and to severe abrasion exposure for high demanding hydraulic applications.

MAIN APPLICATION

- ✓ Specific installation with severe abrasion conditions
- ✓ Heavy duty environmental conditions
- ✓ Underground and open pit mining
- ✓ Earth-moving machine

COMPLETE PRODUCT LINE

All type of hoses are available in EVERGREEN version including also spiralled hoses.

TYPE APPROVALS

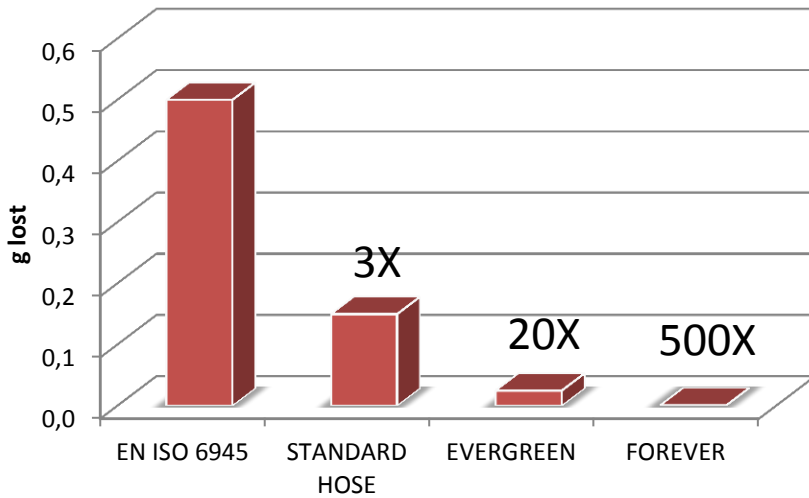

- ✓ MSHA
- ✓ RINA (MED)
- ✓ TEST

FEATURES

- ✓ Very high abrasion resistance
- ✓ Very high ozone resistance
- ✓ Very high weather resistance
- ✓ Flame resistance
- ✓ UV rays resistance
- ✓ Higher temperature resistance

ABRASION RESISTANCE

When tested in accordance with ISO 6945 specification, EVERGREEN rubber cover shows abrasion resistance up to 20 times better results

When tested in accordance with EN 7326 specification, EVERGREEN rubber cover shows ozone resistance up to 10 times better results

OZONE RESISTANCE
